Didsbury Fair Only Two Weeks Away

One of the big services given by Didsbury is its annual Fair and Exhibition, which comes this year on Thursday, August 9th, just two weeks away. The directors and secretary, C. E. Reiber, have been busy gathering up contributions to the prize list, sparing no effort to make this, Didsbury's 25th annual fair, the biggest and best yet.

This event is a valuable feature for the strengthening of the livestock and agricultural produce as well as some special classes. Every citizen in the town and every farmer in the district in doing his or her share will help to make Didsbury's big yearly event a success. This is one of the main assets to the district and all should lend a hand. Get your entries in early and remember the date, Thursday, Aug. 9th.

A suggestion has been made by a few of the business men of the town, that the merchants hold a picnic for the children of the town and district, the latter part of August. Anybody who is interested in this, please call at Ranton's Ltd. If Mr. Ranton has enough callers a meeting will be called to make further plans.

CARSTAIRS 6, DIDSURY 6

Didsbury played its third tie game of the season Monday evening last at Carstairs. It was a hard game for our boys to tie, as they were in the lead all the time. The local boys were leading 6-3 in the last inning, but Carstairs managed to get three men across the plate to tie the game. When this happened Carstairs fans nearly went wild. Our old reliable Cecil Studer relieved Jimmy DeVolin after the score was tied, and he held the boys down for the balance of the inning.

Big Prairie Resident Up On Shooting Affray

Mr. Bane of Big Prairie was brought up for preliminary hearing Tuesday of this week for shooting at Weston Bouch with a shot gun, who with two other boys were going swimming in the Red Deer river Sunday last.

Five boys gave evidence against the accused. In the Provincial Police evidence Baine admitted the shooting but did not realize he had hit anybody. He just intended to scare them.

Mr. Bane will be brought up for trial in the near future, and in the meantime will be held at Fort Saskatchewan, unless bail can be arranged.

Weston Bouch was discharged from the General hospital Tuesday. Quite a number of pieces of shot were removed from his body and limbs.

Trochu golfers were visitors in town last Sunday to take part in an elimination contest to see who would represent District No. 16, in the Herald golf competition. Jimmy McDougal was declared winner, with Bert Fisher running a close second. The players later sat down to a banquet at the Rosebud hotel.

New Principal Pincher Creek High School

PINCHER CREEK, July 25.—The vacancies on the high school staff have all been filled with the exception of the teacher of mathematics. Mr. Crumb, a graduate of English schools, and principal of Didsbury high School last year, has accepted the position of principal. Mr. Crumb is a specialist in history and literature and of Latin and French.

A province-wide organization, the Alberta Fish and Game Association, is now in existence as the result of a meeting of representatives from various parts of the province, held in Calgary during the past week. This body has as its object the protection of the fish and game in the province, the introduction of new species of game birds and fish and the provision of increased sport under proper supervision for the hunter and angler.

The following officials were elected by the new organization: Patrons, J.R.H. the Prince of Wales; Senator D. E. Riley, High River; A. E. Cross, Calgary; P. Burns, Calgary; Senator P. E. Lessard, Edmonton; Senator W. A. Buchanan, Lethbridge, and A. Ballachey, High River. Honorary President, Hon. George Hoadley, Honorary Vice-Presidents, Mayor F. Osborne, Calgary; Mayor W. J. Burns, Coleman; Frank Kolb, Hanna; Schul, Beiseker; G. F. Stevenson,illereit; A. T. Kinnaird, Edmonton, and A. Griffin, Brooks. President, C. A. Hayden, Calgary. Vice-President, Dr. R. F. Nicholls, Edmonton, and Secretary-Treasurer, F. J. Green, Calgary.

The town of Waterhole in the Peace River country, it is announced, will be known in future as Fairview and will occupy a site some five miles from its present location. The townsite of Fairview, which has just been laid out, is at the end of steel on the extension of the Central Canada Railway being constructed this season southwest of Whitelaw. The new name is said to be a happy choice as the town in its new location will command a view over a wide stretch of country across the Peace towards Spirit River.

The value of Alberta's fur production for the season 1926-27 reached a total of \$2,256,353, according to the report just issued by the Dominion Bureau of Statistics. The corresponding figures for the two previous seasons are as follows: 1925-26, \$2,122,778, and 1924-25, \$2,030,974. Of the total fur production for the Dominion of \$18,833,977 in 1926-27, Alberta contributed 12 per cent, being exceeded only by Quebec and the Northwest Territories with 16 per cent, each and Ontario with 21 per cent.

Expecting the Best

Farmers dealing with the United Grain Growers expect the best in service and treatment.

They have a right to expect it, for this is a farmers' company, and it has the experience, the resources, the organization and equipment to give such service and treatment.

"Safety First" on the Highways

At the risk of being somewhat tiresome, the writer of this column feels impelled to once again direct attention to the subject appearing as the title to this article. Justification for such action, if, indeed, any justification is needed, is to be found in certain well established facts.

In the three prairie provinces last year the number of motor cars registered exceeded half a million.

In all three provinces, Governments and municipalities are straining their resources in the construction and improvement of good market roads and provincial highways, and every mile so constructed or improved results in an increase in motor vehicular traffic and an increase in the speed at which most of the cars will travel.

In the improvement of highways, advances are being constantly made in the direction of making them as nearly as possible "safe" through increases in width, reduction in grades and curves, guard rails at curves and danger spots, and a standardized system of marking the highways, indicating routes, turns, curves, railway crossings, danger spots, etc.

On the other hand, year by year, manufacturers of cars are increasing the power and speed of cars, and with gradual price reductions their use is becoming almost universal. It is true, of course, that four-wheel brakes, and other safety devices, are being added, and manufacturers are interested and active in making their cars as nearly "fool proof" as they can be made.

The fact to emphasize, and which it is important should be drilled into the minds of every motorist, is that no matter what Governments and municipalities may do in the matter of road construction, and no matter how strongly and carefully motor cars may be built and equipped from the prevention of accident standpoint, the human element remains. Neither roads nor cars can be made "fool proof," and the unfortunate fact is that the reckless driver is just as great a danger to others as he is to himself. If the highways of the country are to be made safe, it is evident that there must be a decided change in the attitude and conduct of many thousands of motor car drivers, and the public generally.

In an address before the annual convention of the Union of Saskatchewan Municipalities, Hon. S. J. Latta, announcing the early inauguration of a "Safety First" campaign throughout the Province, stated that he had recently read in a newspaper that someone was either killed or seriously injured every forty seconds in an automobile accident in the United States, and that during 1927 approximately 26,618 persons were killed and 793,700 injured in such accidents. He further referred to the fact that at a conference held in the Parliament Buildings of Ontario it was revealed that 1927 automobile accidents cost 422 lives in Ontario, an increase of 124 over 1926, while 3,976 others were injured. It was further reported that fatalities were in the proportion of eight to each one thousand car licenses.

These are appalling figures and certainly indicate the need of somehow controlling this great modern convenience. What was the cause of these accidents? Were they preventable? The results of investigations in the United States show that 11,765 highway accident fatalities in 1927 were caused principally by motorists, of which 3,765 were caused by inattention, 2,706 as the result of speeding, 2,353 through traffic violation, 1,059 from intoxication, and 1,882 from miscellaneous causes.

About an equal number of fatalities, 11,367 to be exact, were caused principally by pedestrians, of which number 3,638 occurred through children playing in the street or crossing in violation of traffic regulations, 3,069 from adult jay-walking, 1,819 through inattention, 1,591 as a result of confusion, and 1,250 from other causes.

As compared with these more than 23,000 fatalities caused by the human element, there were only 1,290 resulting from fog, snow or rain, 662 from some defect in the vehicle, 558 from skidding, 383 from road defects, 244 from strong lights, 244 from poor street lighting, and 105 from confusion in dimming lights. In other words, physical conditions were responsible for 3,426 fatalities as contrasted with over 23,000 for which people themselves were responsible.

Surely such a record provides ample justification for repeatedly urging people to exercise care, to realize that Common Sense will prevent accidents and should be applied, that the Safe way is the Safe way.

Prominent Visitors From Ireland

Marquess Of Dufferin and Ava Will Make Tour Of Canada

The Marquess of Dufferin and Ava, speaker of the senate of Northern Ireland, who is a son of a former governor-general of Canada, was a passenger on the Empress of Scotland, which arrived at Quebec recently. In a short interview, he declared it was his intention to see Canada from coast to coast on his present stay here. Regarding the industrial situation in Northern Ireland, the marquess declared that, with the exception of a slight improvement in the shipbuilding industry at Belfast, there was little change as compared with a year ago.

Prepared For Emergencies

Commander Byrd's Expedition Will Be Self-Rescuing Unit

Commander Richard E. Byrd's Antarctic expedition will be a self-rescuing unit and if disaster should befall it no outside aid will be expected.

In a statement to the Associated Press, Commander Byrd said:

"We are to have three aeroplanes and the most up-to-date radio equipment available. When sections of the expedition are separated there will be constant inter-communication, and if trouble should befall one section the rest would immediately go into action as an organized relief body."

Cuticura Talcum Is An Ideal Toilet Powder

Third Wrigley Marathon

Ernst Vierkoetter a Sure Entry in This Outstanding Event

While much dissatisfaction has been expressed by Vierkoetter and his manager regarding the shortening of the distance for the Third Wrigley Marathon, again to be conducted by the Canadian National Exhibition this year, there can be no question about his entering as he is daily training in Lake Ontario.

He seems to be carrying more avoidups than he did last year, and experts say that he is a little sluggish. This, of course, at this stage of the game, means little. George Young is the size of a young elephant and swims more or less sluggishly in consequence. Both of them will undoubtedly take this off in the course of their intensive training, so that comparisons are more or less impossible at this time.

Vierkoetter is a great swimmer and unlike most distance men is fast. Witness his feat of last year when he covered the first five miles under 28 minutes each. That should be fast enough to win this year's Marathon.

From a spectacular standpoint the Third Marathon will surpass the Second. The course will be along the sea wall, and will be in full view of the tens of thousands of spectators who will again flock to see the great event.

The entries are now coming in thick and fast and it is estimated that they will exceed those of last year.

GUARD BABY'S HEALTH IN THE SUMMER

The summer months are the most dangerous to children. The complaints of that season, which are cholera infantum, colic, diarrhoea and dysentery, come on so quickly that often a little one is beyond aid before the mother realizes he is ill. The mother must be on her guard to prevent these troubles, or if they do come on suddenly to banish them. No other medicine is of such aid to mothers during hot weather as Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

London will add 75 double-decked omnibuses, fitted with pneumatic tires, this year.

A pleasant medicine for children is Mother Graves' Worm Exterminator, and it is excellent for driving worms from the system.

Many Farmers Join Pool

Estimated That About Half the Wheat Crop of West Contributed By Pool

The Canadian Wheat Pool, which embraces 142,000 Canadian farmers, continues to add to its membership. In a single day this month contracts were received at head office covering a total of nearly 100,000 acres of grain.

Under the Canadian Wheat Pool system farmers voluntarily sign contracts in which they agree to market all their wheat through the Pool for a period of five years. About half the wheat crop of Western Canada is controlled in this way, and sales by the Pool average over a million dollars for every business day of the year. It is claimed that the Pool has increased the price of wheat to the farmer without increasing the price of bread to the consumer.

Miller's Worm Powders seldom fail. They immediately attack the worms and expel them from the system. They are complete in themselves, not only as a worm destroyer, but as a highly beneficial medicine for children, correcting weak digestion and restoring the debilitated system to healthfulness, without which the growth of the child will be retarded and its constitution weakened.

Did Not Find Out

A popular Scotch doctor who was very sensitive about his age passed away suddenly. One of his friends suggested to the mourners that the secret would be disclosed on the plate in the casket. But when they looked at it, all it disclosed was:

Dr. Caleb McNabb.

German Prisoners Released

Thousands Of Prisoners Regain Freedom Under Amnesty Bill

The jail doors in Germany were opened for release of thousands of prisoners recently, when the Reichstag passed by more than the two-thirds necessary majority the most sweeping amnesty bill since the success of the Republican revolution.

Among those to be set free under the measure are the last of the Imperial Army soldiers who were sentenced by the Kaiser's court martial for desertion and other offences.

The bill was opposed only by the Bavarian Folks party of the small Hanover party.

After passage of this measure the Reichstag adjourned until the autumn.

Corns cause much suffering, but Holloway's Corn Remover offers a speedy, sure, and satisfactory relief.

People who don't spend their money as we think they should are miserly.

Demonstrated Her Skill

Winnipeg's first and only aviatrix, Eileen Magill, demonstrated her skill by soaring to a height of 8,000 feet with the Winnipeg Flying Club's Moth plane, and tail-spinning for the first time since she took her first solo flight.

The Friend Of All Sufferers.—Dr. Thomas' Eclectric Oil is a valuable remedy to all those who suffer pain. It holds out hope to everyone and realizes it by stilling suffering everywhere. It is a liniment that has the blessing of half a continent. It is on sale everywhere and can be found wherever enquired for.

When some men bury the hatchet after quarrelling they go right out and dig up an axe.

Every Home Needs Minard's Liniment.

The boy who turns out as smart as his mother predicts is truly a wonder.

Granite monuments of the Egyptians were cut with copper chisels.

CONSERVATIVES WIN IN B. C. BY LARGE MAJORITY

Vancouver.—The Liberal Government which has held power in British Columbia for the past twelve years, and which has been led by Premier J. D. MacLean for the past year, was defeated in the provincial elections, and the Conservative party, under the leadership of Hon. Dr. S. F. Tolmie, was elected to power.

The Premier and at least two of his ministers were defeated. Dr. Tolmie was elected in Saanich.

Premier MacLean was defeated in Victoria; Hon. Dugald Donaghay, minister of finance, in Vancouver; Hon. E. D. Barrow, minister of agriculture, in Chilliwack.

Liberals have been elected in New Westminster, Cranbrook, and Nanaimo.

Conservatives have been returned in Vancouver six, Victoria four, Saanich, Burnaby, South Vancouver, North Okanagan, Chilliwack, Cowichan-Newcastle, Comox and The Islands.

The Liberals gained Cranbrook from the Conservatives, while the Conservatives have gained all six Vancouver seats, five from Liberals and one from the now defunct Provincial party; Chilliwack from Liberals; Comox from Independents; Burnaby from Labor; South Vancouver from Labor.

Mrs. Mary Ellen Smith was defeated by R. H. Pooley, in Esquimalt.

Of the 48 seats contested in the provincial election of 1924, in the Legislature, the Liberals carried 23 in the last contest; the Conservatives, 17; Labor 3; provincials, 2; Independents, 1; and Independent Liberals, 1.

Receives New Appointment

Dr. Delury Of Saskatchewan University Will Go To Manitoba

Winnipeg, Man.—Dr. J. G. Delury, of the University of Saskatchewan, will succeed Dr. R. C. Wallace as commissioner of mines and as professor of geology and mineralogy at the University of Manitoba. The appointment was announced by the government.

Prof. Delury expects to make the necessary arrangements with the University of Saskatchewan to make it possible to take up his work here September 1, when Dr. R. C. Wallace leaves to take over the position of president of the University of Alberta.

Dr. Delury is well known in Winnipeg and Manitoba. He was for many years the right hand man of Dr. Wallace in the department of geology and mineralogy at the University of Manitoba. In that capacity he rendered valuable service to the province. One of his latest contributions was a voluminous report which he prepared two or three years ago for the industrial development board.

It is only a year ago since he left to organize the department of geology at the University of Saskatchewan as professor in charge of that department.

Dr. Delury is a graduate of the University of Toronto and of the University of Minnesota, and was in charge of the department of geology in the University of Idaho before he came to Manitoba in 1913.

Russia Buys Canadian Wheat

Further Sales Of Canadian Wheat To Russia Are Announced

Winnipeg.—Further sales of Canadian wheat to Russia were announced at the grain exchange here. That country has taken another 1,500,000 bushels, bringing her total purchases during the past fortnight to 9,500,000 bushels.

A good portion of the grain was No. 3 Northern Manitoba. Italy is credited with the purchase of one million bushels of Durum wheat recently, mostly from the local market.

Demand from other European countries remains indifferent partly because of increased native supplies and partly on account of prospects for large crops on the North American continent this year.

W. N. U. 1743

Canadian Militia Promotions

A Number Of Transfers and Promotions are Announced

Ottawa.—The rank of "Brigadier" recently introduced in the British Army has been adopted in the Canadian Militia, with effect from July 1. The temporary rank of "brigadier" is in substitution for the temporary ranks of colonel, commandant and colonel-on-the-staff.

Orders promulgated from defence headquarters announce a number of important promotions in the Canadian Militia. Among them are the following:

Major E. H. Cope has been promoted to the rank of lieut.-colonel and to command the Vancouver Regiment with regimental headquarters at Vancouver, B.C., vice lieut.-colonel E. G. Wolfe Merton, M.C., who has been transferred to the reserve of officers.

Major W. W. Henderson has been promoted to the rank of lieutenant-colonel and to command the 2nd regiment the Alberta Mounted Rifles, with regimental headquarters at Pincher Creek, Alta., vice lieutenant-colonel J. H. Jackson, transferred to the reserve of officers.

May Establish Trade Treaty With Germany

Flour Would Lead Canada's Export List, Says N. B. Palmer

St. John, N.B.—Canada export trade with Germany will be greatly increased under favorable treaty agreements which the Dominion is now endeavoring to establish with that country, said Max B. Palmer, of Calgary, newly appointed assistant Canadian Trade Commissioner to Hamburg, who was here in connection with a tour of the Maritime provinces with a view to developing Maritime export trade with Germany.

In speaking of Canada's trade conditions with Germany, Mr. Palmer stated that at the present time Canada is discriminated against as a result of existing agreements which particularly affected the export of flour as well as other commodities.

Should the trade treaties being advanced by the Canadian Government go through successfully, Mr. Palmer is of the opinion that flour would lead Canada's export list to Germany.

Receive Royal Pictures Fo National Gallery

Gift Of King George Replaces Portraits Destroyed By Fire

Ottawa.—Pictures of King George, Queen Mary, Prince of Wales, King Edward and Queen Alexandra, were received by Eric Brown, director of the National Art Gallery, on behalf of the Canadian Government. These portraits are the gift of King George and will replace the pictures of these distinguished members of the royal family which were in the old parliament buildings but were destroyed when the buildings were burned in 1916.

Considering Air Insurance

Canadian Companies Believe People Will Want This Protection

Ottawa.—Canadian insurance companies are considering special forms of insurance for civilians interesting themselves in aviation, it is learned. Recently a conference of actuaries and insurance medical authorities is said to have discussed the matter, realizing that soon the man who drives his own plane will be in the same category as the man who drives his own car, so far as the demand for insurance is concerned.

Will Tour Canada

Quebec.—Fifty members of the National Chamber of Commerce, of Great Britain, headed by Counsellor James Stanworth, president of the Chamber, arrived here and immediately proceeded to Montreal by train. The party will tour Canada, staying in Montreal two days before going to Ottawa.

Federal Government To Raise Pigeons

Ottawa.—The Dominion Government is going in for pigeon-breeding. The object is not, however, to increase the food supply of the country. It is to breed and train pigeons for purposes of communication. The department of national defence is to have charge of the work.

PREMIER-ELECT FOR B.C.

Hon. Dr. S. F. Tolmie, leader of the Conservative Party in British Columbia.

Clark's Status Discussed

Duties Of British High Commissioner in Canada Debated In House

London.—The British Government's newly appointed high commissioner in Canada, Sir William Clark, who is sailing for Ottawa shortly, and the duties of the newly created position were discussed in the House of Commons when P. J. Hannon, Conservative, Moseley, asked whether the High Commissioner would take precedence over the representative of all foreign powers at Ottawa, and if in submitting proposals respecting British commercial interests to the Government of Canada, he would have full diplomatic support of his Majesty's government in Britain.

Right Hon. L. C. M. S. Amery, Dominion Secretary, in replying remanded the questioner of the similar case of the Dominion high commissioners in Britain, who ranked immediately after cabinet ministers, but not before foreign ambassadors.

It was of course contemplated that the high commissioner of Great Britain, in Canada, would be authorized to make representations on commercial questions to the Canadian government when instructed to do so by His Majesty's government in Great Britain, the minister said.

Statistics Show Crime Increase In Canada

Convictions Recorded In 1927 Higher Than Previous Year

Ottawa.—Crime is increasing in Canada. Latest official statistics available show that for the year ended September 30, 1927, the number of convictions recorded reached a total of 212,075 as compared with 187,361 for the preceding period ended September 30, 1926.

The number of indictable offences returned for the year under review, according to the Dominion Bureau of Statistics, was 23,526 charges and 18,835 convictions. Summary convictions for non-indictable offences amounted to 193,240.

Norwegian Journalists Visiting Canada

Party of representative Norwegian journalists now touring Canada, under arrangements made by the Canadian Pacific's Department of Colonization and Development—visiting the various Norse settlements in the Dominion and gaining first-hand impressions as to immigration prospects.

Would Export Alberta Gas

Plan To Pipe Waste Gas To Saskatchewan, Manitoba and Montana

Lethbridge, Alta.—Alberta's problem of waste gas seems closer to solution and it appears to lie in the piping of the surplus gas to Saskatchewan and Manitoba cities, and the cities of Montana.

In an interview here, Hon. Charles Stewart, minister of the interior, gave it as his opinion the shipping of gas 800 miles to Winnipeg, serving intermediate cities, including Moose Jaw and Regina, was feasible.

Again exportation of gas from the Rogers' field, southeast of this city, is now possible under Federal permit. The Range Oil and Gas Company has spudded in another well on the Rogers dome just south and east of the 60,000,000 foot producer, and the plans of this company and the Hardrock Oil Company, of Great Falls, who will drill the wells, are to have gas flowing through their pipe line into Montana by winter. A pipe line will be built to the Montana boundary, it is announced, either to link up with the present pipe line to Great Falls or as a separate line into that city.

Feeling Against Noble

Leader Of Italia Expedition Under Criticism In Norway

Oslo, Norway.—Feeling against General Umberto Nobile, leader of the Italia expedition, is making itself felt in Oslo.

The newspaper *Aftenposten* removed a picture of the general from a show case during the day as threats had been made to destroy it.

Several Danish explorers have proposed Fridtjof Hansen as chairman of a court of honor to investigate Nobile's leadership of the expedition. Hansen declined this but said that he thought there were several events in Nobile's expedition that need closer investigation.

No Claims Paid This Year

Government Does Not Intend To Pay Reparations Now

Ottawa, Ont.—Although the War Reparations Commissioner has made his report which was made public last season, the government does not intend to pay the claims for a year. Part of the money for this purpose was included in Hon. James A. Robb's surplus. There was much disappointment among the big claimants at the size of their awards. These may be revised by the Government, but the 3,000 small claimants will have to be satisfied with what Reparations Commissioner T. Riel found due them.

Has New Financial Plan

Victoria, B.C.—Reconstruction of the financial structure of the Canadian National Railways, in a plan to be submitted to the Government at the next session, was intimated by Sir Henry Thornton in an address here to the Kiwanis Club.

ASSASSIN OF GEN. OBREGON IS IDENTIFIED

Mexico City.—Police headquarters semi-officially announced that the assassin of General Obregon had been identified as Jose de Leon Toral, an art student, aged 23, a native of Lagos, in the State of Jalisco.

He is said to have lived at Guadalajara, but to have come to Mexico City six months ago seeking work. Police said they found upon him a picture of the Catholic priest, Miguel Augustin Projuarez, who was executed in connection with the attempt to assassinate Obregon with bombs last November.

It was said that de Leon Toral refused to admit accomplices and insisted throughout his grilling that he alone was responsible.

Federal district police arrested and held for investigation Emilio Casado, proprietor of the restaurant where Obregon was killed at San Angel, and all twelve employees of the place.

Government censorship of despatches was still in force.

El Universal Grafico says that the mother and wife of the assassin have been arrested and are being held.

In a signed statement, President Plutarco Elias Calles declared that the assassin of General Obregon had admitted the motive of his crime was religious fervor.

There were innumerable rumors in the capital of uprisings and other killings, but all proved to be untrue. Intense excitement prevailed everywhere, but neither the newspapers nor the government had any information of trouble breaking out anywhere in the republic. The war department issued an official communiqué saying that the army would guarantee the public peace.

President Calles was surrounded by a strong guard. All saloons were closed, as were theatres and other places of amusement.

Many of those known to be opposed to Obregon, fled from Mexico City before the fury of his friends and supporters, which were kept in bounds only by police precautions. The headquarters of Luis Morones, Secretary of Labor, and Obregon's greatest political opponent, were surrounded by a guard at the instance of President Calles, who feared that there might some attempts at violence.

Libel Action Settled

Action Was Brought By Cardinal Hayes Against London News-paper

London.—Settlement of a libel action brought by Cardinal Hayes, of New York, against the Sunday Express was announced in the King's Bench division.

Counsel stated that a paragraph appearing in the newspaper had said that the cardinal was a man who excused murder of Kevin O'Higgins, Irish Free State minister of justice, on the ground that he was "an English hirer."

Counsel said that the defendants never suggested for one moment that the statement, which had been made by a contributor, could be justified and promptly did the honorable thing by apologizing for having published it.

Will Succeed Dr. Wallace

Winnipeg.—Dr. J. S. Debury, of Saskatoon, will succeed Dr. R. C. Wallace, as commissioner of Mines of Manitoba, and as professor of geology and mineralogy at the University of Manitoba. Dr. Debury expects to take over his duties when Prof. Wallace leaves to take the position of Professor of Mines at the Alberta University.

Accepts Kellogg Treaty

Brussels, Belgium.—Foreign Minister Paul Hymans has handed to the United States embassy Belgium's acceptance of the Kellogg draft treaty for the outlawry of war.

Have Restored Titles

Prague.—The Czechoslovakian government has introduced a measure in parliament restoring medals and titles which were abolished after the revolution.

A WORTHY EFFORT

A number of Didsbury's citizens, realizing the value to the town of a more attractive tourist camp, got together in an effort Monday evening last to endeavor to make the park a little more attractive.

It is regrettable that the Town Council had not realized the necessity of this park for visiting automobile tourists being made a little more convenient and attractive than it has appeared of late.

Renewed efforts on the part of these citizens were further responsible on succeeding evenings of the first part of the week in ridding the park of the tall grasses and weeds, and tonight (Thursday) it is hoped that the job may be completed.

The Council can probably be prevailed upon to have the existing sign on the south side placed more conspicuously and another one on the east side of the park erected. Possibly an electric light over each sign and another light at the entrance and inside the little building housing the stove may prove of advantage to the visitors. Nor is there any direct water supply.

Because of this community effort together with a few more added conveniences, tourists from all sections of the country will spend a while here. Small though it may be, the money each spends for provisions, etc., is that much more brought into Didsbury. The visitor will go away with a good word for our town's thoughtfulness. He will pass it on to his friends that Didsbury possesses one of the most convenient stopovers for tourists on the Calgary-Edmonton highway, if not one of the best of the smaller towns in Alberta.

NO "OLD MEN'S" CLOTHES

Tailors say they have ceased making "old men's clothes" for the reason that there are no old men. There has been a decided lengthening of the "expectation of life" in recent years, but the men who are old according to the reckoning of birthday anniversaries refuse to wear the sort of garb that was once the uniform of the elderly. And it is the mental attitude illustrated by their independence and enterprise in this respect that is helping to keep them young in body and spirit.

One of the first outward signs of this refusal to be old was the cutting of the facial foliage, which made even the middle-aged look like patriarchs. Then motoring, golf and other outdoor pastimes made necessary retirement of the stovepipe hat and the "Prince Albert." Young men today have no monopoly of sport suits and knickerbockers. Their fathers and grandfathers are frequently just as eager to appear "collegiate." And so there are no styles exclusively for the elderly any more. Men, old or young, dress much alike. They express in their attire the spirit of getting there, of being on the move and bringing things to pass. If the youngsters set the sartorial pace, the oldsters will be found not far behind.

TRADE BUILDS CITIES

That community profits most that keeps the largest percentage of its trade at home. By the same token, the citizen who buys away from home is helping some other community, instead of his own, to grow.

Business is the lifeblood of the community. A city or town can grow no faster than its business grows, here, and with equal economy.

LOCAL & GENERAL

Mr. and Mrs. Austin and daughter are holidaying at Victoria.

Roger Barrett unloaded a car of new Fords on Saturday.

Greater than ever — Didsbury's Fair, Thursday, August 9th.

D. S. Shantz of Castor, has been a visitor in town for the last week.

Peter Fox is a visitor at his home at Bently, Alta.

The Dog Pound is visited by many Didsburyites these warm evenings.

Mr. and Mrs. W. H. Morgan spent the week-end in Calgary.

Mr. and Mrs. Lee Sanderman returned home on Tuesday from their motor trip to the Coast.

Mr. and Mrs. J. Boorman motored to Olds Saturday last to visit with the latter's parents.

Mr. and Mrs. Tom Stark of Drumheller spent Tuesday with Jim McGhee and family.

Mrs. Helen Williams of Calgary is visiting her sister, Miss Olwen Owen this week.

Colleen Moore in "Naughty But Nice," at the Didsbury Opera House, Wednesday, August 1st.

A dance will be held in the Lone Pine hall on Friday, July 27th. Clemens & Bellamy orchestra. 30c

Messrs. Teskey, Sherman and Weber motored to Edmonton last week to attend the Exhibition.

The Bawlf and Federal elevators have each received a coat of new paint.

Mrs. W. J. Hillyard was a judge of the fancy work at the Olds fair yesterday.

Eddie Clemens of Calgary spent Sunday in Didsbury at the home of his parents.

Mr. Jas. McDougall left yesterday to take part in the Herald Goliath Competition.

Mr. R. Hawkes motored to Calgary on Sunday in a new Ford roadster purchased from Roger Barrett.

TOURISTS! Call on W. S. Durrer and have the front seat of your car put down. It makes a fine bed for tourists. 30c

R. D. Curdy and children, of Drumheller, have been visitors at the home of Mr. and Mrs. A. Crossman.

COUNTRY ball teams be sure your entries are in by August 6th for the baseball tournament to be held at the Didsbury fair, August 9th.

Come to the old timers' picnic, August 9th at Keiver's Lake. Swimming and sports of all kinds. Ladies bring your lunch baskets.

Mrs. J. W. Cummings of Edmonton is spending a month's vacation at the home of her daughter Mrs. W. J. Hillyard.

And the retail trade is a vital part of this business.

Many patrons of mail order houses and out-of-town stores do not realize the extent they injure their own community and themselves by diverting their trade from home town merchants. They do not realize that they lose far more than the few cents they may save in the immediate transaction.

Industries bring money to a community, but the community benefits only when that money is spent at home. It gets no benefit from the money if it passes directly from the pay envelope to the mail order house, the degree it does benefit being in direct ratio to the length of time it remains in local circulation.

The well-meaning housewife reasons with herself that Didsbury merchants will not miss the few cents accompanying the mail order or the small purchase in the nearby city. She is at fault only in that she does not reason far enough. Those few cents would remain at home and that small purchase would be made in a local store if she multiplied them by the number of housewives in the community.

Anything that can be purchased away from Didsbury can be obtained here, and with equal economy.

GOOD PROGRESS ON NORTH RAIL EXTENSIONS

It is expected that construction work on the extensions to the E. D. & B. C. and Central Canada railway lines will be completed in time to handle the increased 1928 crop shipments out of the newly opened districts in the north, it is announced by Hon. V. W. Smith, Minister of Railways.

Grading on the fifteen-mile extension from Whitelaw to the new end of steel at Fairview, north of the Peace River, will be completed by the end of August, and laying of the steel will commence immediately thereafter. Good progress is also being made on the 25-mile grade from Wembley to Hythe and it is hoped that much of this line will be completed before freeze-up.

IN MEMORIAM

In loving memory of Anna Pross, who died July 24, 1927. Inserted by her loving friend, Mrs. C. L. Cipperly.

"A precious one from us has gone,
A voice we love is stilled;
A place is vacant in our home,
Which never can be filled.
God in his wisdom has recalled,
The boon his love had given,
And though the body slumbers here,
The Soul is safe in heaven."**25 YEARS AGO**

The Bell Telephone Co. are putting in their system on the C. & E. line.

Ben Deck has disposed of his livery business same having been purchased by W. T. McClain.

The addition to Smith's store is being pushed rapidly.

15 YEARS AGO

Sports day, Friday, August 8th Committees are requested to get busy.

Mrs. E. E. Unger of Berlin, Ont., sister of Mrs. W. G. Liesemer, and Mrs. Woolner and daughter of Medicine Hat, are visiting with Mr. and Mrs. W. G. Liesemer and other friends in Didsbury.

Russell Burns of Calgary, formerly of Lone Pine, was in town on Tuesday.

10 YEARS AGO

Miss Mary Fox of Calgary, visited her parents, Mr. and Mrs. Peter Fox, last week.

The weather continues fine, but a good rain would be appreciated to help the hay and check the cut worms.

Messrs. Arden Deadrick, Frank Stevens and Morris Thaler were up from Calgary where they are in training and visited home folks last week.

Farmers' Marketing Tour

Canadian National Railways' Tour To Great Britain and Denmark, 1928

Continued.

In the evening, as guests of the Danish Government at a performance of Faust, in the Royal Opera House, we renewed our acquaintance with Mr. Millington Drake, whom we shall remember, not only as the worthy representative of the British Foreign Office in Denmark, but as a friend of Canada and the Canadian Farmers Party. Sitting with us Mr. Millington Drake entertained us with a resume of the opera for those who were not familiar with the great work. During the evening we were honored by the appearance in the Royal Box of King Christian, a gracious courtesy which was acknowledged by representatives of the party calling at the palace to sign the Royal book, which is the Danish equivalent of our Canadian custom of leaving cards. The next day the King telephoned Mr. Millington Drake, as follows: "Please thank the Canadians for their visit to the Queen and me. We hope they will keep a pleasant remembrance of their stay in Denmark."

Before leaving Copenhagen on our return to Esbjerg, we had two important calls to make at the Kolle Kolle Red Danish Cattle breeding farm, and the Daastrup Landrace pig breeding station.

The Kolle Kolle farm, owned by 800 Zeeland farmers, has been responsible for many interesting and successful breeding experiments. The herd of 70 pure bred Danish Milch cows, which we inspected was of remarkable uniformity and noteworthy for their high butter fat test and their copious middle and spring of rib.

On leaving the farm the party received a surprise invitation from Baron van der Neergaard to visit his home and farm, an experience which was much enjoyed. The Baron, who is farming a large acreage, was able to show the party a beautiful estate and a particularly fine herd of cattle.

The visit to the Landrace pig

breeding establishment revealed something of the secret of the remarkable uniformity which characterizes the Danish hog. Here it was found that the best bacon hogs were obtained by crossing the pure Yorkshire type with the Landrace pig, a hardy native breed which is in itself rather coarse and lacks the length so desirable for bacon. Today breeding centres are maintained in different parts of the country, some for Yorkshires, and others for the Landrace from which the Danish farmer is able to buy pure breeds of both breeds for crossing purposes. The Daastrup station which we visited is the oldest, largest and best in Denmark.

Back in Esbjerg, we were introduced to one of the most remarkable achievements of the Danes. The loss of so much valuable territory to the Germans, in 1864, gave Denmark the choice of emigration or an attempt to reclaim to agriculture on a large scale vast stretches of practically uninhabited country. These were the sandy wastes along the West coast of Jutland, where for miles inland no human habitation was visible. Such of the land as was not pure drifting sand was covered with gorse and heather.

The Danes bent their energies to the latter course, with the result that today there are 350,000 acres in pine forest and 1,200,000 acres, nearly two-thirds of the total original heath, have been reclaimed by tree planting.

Time did not permit us to visit the older plantations, but a trip to one of the ten to fifteen years-old plantations outside Esbjerg, filled us with amazement. A sandy, windswept barren, sour plain there had been turned into a productive and beautiful country, thousands of acres of which are pasture land, capable of supporting a fair live-stock population.

A trip to Ribe, the oldest town in Denmark, with quaint and narrow streets; then a farewell on behalf of the citizens of Esbjerg, completed our stay in Denmark, a gallant little country which we left with regret. Our sincere appreciation was telephoned to the Prime Minister and through him to the people of Denmark.

We also telephoned our thanks to the British Charge d'Affaires, who had proved himself not only a worthy representative of the British Empire, but had become almost a comrade.

Little need be said of the return voyage across the North Sea except that, for the first time, there was a reduced attendance at the dining-table.

London again! No place like London! After all, it was good to hear around us our mother tongue, even if spoken with a different accent! Our first morning was spent at leisure, but in the afternoon we were to have the honour of a reception by the King and Queen, and tea at Buckingham Palace. If we had felt some trepidation, it would have been excusable, but how little need for any such feeling. The shyest person would have been put at ease by the kindness of the King, the graciousness of the Queen. Her Majesty had been indisposed for some days, and the Royal party had only returned

The London Hunt and Country Club is widely known for the excellence of its afternoon teas. For several years this progressive club has used no other tea but Red Rose Orange Pekoe—a blend that leads all others in flavor and full-bodied richness. Put up only in bright, clean aluminum packages. ISEW

less than one hour before from Sandringham, nevertheless she insisted on meeting the Canadian farmers' party, her dress ornamented by a maple leaf brooch which had been presented to her twenty-seven years ago when she visited Canada as the Duchess of York. His Majesty was thoroughly interested in the Danish tour and asked many questions about it. This was the crowning honor in a tour already rich in privileges accorded.

Our next engagement brought us to a sphere in which we were the experts. This was our visit at our Brandon, Suffolk, to the Ministry of Labor's Training Farm for Overseas Settlement, when we were asked frankly to give our impressions of what was being done to transform groups of unemployed young men into farm workers for Canada. Here on the beautiful Weeting Hall Estate was the most interesting and the most hopeful experiment we had seen. One of the biggest problems which are Britain's legacy of the war, and of post-war conditions, is that of knowing what to do with the able-bodied, willing young men for whom there is no employment and for whom there is at present no recourse but the "dole" which it should be explained is not a charity, as is often believed in Canada, but is available under the national scheme of unemployment insurance. The Ministry of Labour's training scheme is one of the ways out. Young men desiring to settle in the Dominions are given a preliminary training suited to the particular Dominion to which they hope to go. Others are given training which will fit them for new occupations in the Old Country. The group which we visited was being trained for Canadian farming. With Canadian implements, they were being taught, by men with Canadian experience, hitching, harnessing, ploughing, milking, the use of the axe and of such tools as are employed in general handwork.

(To Be Continued.)

Canada Colonization Association

Hope To Place 3,000 Families On Land This Year

The Canada Colonization Association hopes to record this year the placing of 3,000 families on privately owned farm lands in Canada. It is now within about 300 of this figure, according to T. O. F. Herzer, manager of this subsidiary of the Canadian Pacific's Department of Colonization and Development. Since its inception on January 1st, 1925, the Association has placed 2,679 families on 650,357 acres; this year's contribution up to the end of May, being 335 families settled on 61,114 acres. With Ontario now being included in the circuit of the Association's activities, the placements for the present year up to May 31st, run as follows: Ontario, 71 families placed on 2,611 acres; Manitoba, 54 families on 14,383 acres; Saskatchewan, 97 families on 20,122 acres; Alberta, 88 families on 25,652 acres; and British Columbia, 25 families on 1,336 acres.

Running out of gas is very annoying on country roads, but it is really embarrassing to those travelling by air with no land in sight.

No one is truly law-abiding until he has learned to rule himself and to obey the voice within.

HE DIDN'T THINK DYSENTERY COULD BE RELIEVED

Mr. John Melling, Fenner, Alta., writes:—"I am a returned soldier, and when I came home from overseas I suffered greatly with dysentery. The doctor said it was chronic and did not think it could be relieved. However, he doctored me for quite a while, but did me no good. One day the druggist asked me if I had ever tried

"On his recommendation I bought a bottle and after I had taken it got some relief, so I got two more, and have never had the dysentery since 1925."

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

IS VISITING CANADA

Hon. Ian Baird, an Oxford student, son of Lord Stonehaven, governor-general of Australia, who arrived in Canada a few days on the White Star liner "Albertic," to spend his summer vacation "mucking" in mines at Amos, P.Q., and Timmins, Ont.

SUNDAY SCHOOL LESSON

JULY 29

THE FIRST FOREIGN MISSIONARIES

Golden Text: "Go ye therefore, and make disciples of all nations, baptizing them in the name of the Father and of the Son, and of the Holy Spirit; teaching them to observe all things whatsoever I commanded you: and lo, I am with you always, even unto the end of the world."—Matthew 28:19, 20.

Lesson: Acts 13:1-52.

Devotional Reading: Psalm 67.

Explanations and Comments

The First Foreign Missionaries Chosen and Ordained, verses 1-3. In the flourishing Christian church at Antioch there were numerous prophets and teachers, men of special inspiration. Among these was the energetic and lovable Barnabas of Cyrene. Others included Symeon the Black—doubtless an African; Lucius of Cyrene (the province in North Africa lying next to Egypt), who perhaps was one of the Cyrenian evangelists who had established this church at Antioch (Acts 11:20); Manaen—another form of the Hebrew Menahem (2 Kings 15:14)—who was the "foster-brother" of Herod the Tetrarch (Herod Antipas, son of Herod the Great), and was seemingly a person of some social importance, and, finally, Paul of Tarsus. Apparently the historian meant Paul's place, at the end of the list, to be emphatic, just as was Barnabas, at the beginning of the roll. These five leaders of the Antiochian church were evidently Grecian Jews.

"We know nothing of Symeon and Lucius and Manaen, and yet it is good to have their names, for they remind us of the host of faithful witnesses of the truth who stood back of the Christian movement, and encouraged its leaders to carry on. George Eliot, in one of her fine tales, speaks of 'the faithful who are not famous.' What should we do without them? All great causes demand great leaders. Without Paul and Peter and Barnabas the early Church would have been as an undisciplined army without officers, or as a rope of sand; but Niger and Lucius and Manaen were needed as surely as Barnabas and Paul."—The New Outlook.

While the church at Antioch, under the leadership of these five men, was carrying on its services of worship, prayer and fasting, an advance movement was initiated under the direction of God. It is probable that the prayer of the church was "awaiting upon God for special guidance on a matter already occupying their thought; this matter was surely the question of a forward movement into the Roman Empire." Paul and Barnabas, indeed, may have been thinking of this question when they had brought with them from Jerusalem John Mark (Acts 12:25).

Extending Air Service Westward

Contracts As Far As Winnipeg Planned For Next Year

A gradual extension of the air mail services now successfully operating in the east to the west is contemplated by the Post Office Department.

Fliers have started out to determine the best route for a service between Montreal and Winnipeg and whether aeroplanes or hydroplanes are the best adapted to the service.

Contracts as far as Winnipeg are planned for next year and the department has in view later an extension of this service across the prairies although to that end no definite steps will be taken for a while.

A man always thinks that appearances are deceitful when they are against him.

Service

THE Firestone Dealer's trained service men apply tires and tubes right, and help you keep them in condition to get more mileage. They service every tire they sell. This is one reason why Firestone Gum-Dipped Tires are breaking mileage records around town and everywhere else. Firestone builds in the miles—Firestone Dealers get them out for you. They save you money and serve you better.

Always put a Firestone steam-welded, leak-proof tube in your Firestone tire

Homestead Entries

906 Homesteads Taken Up In Four Western Provinces During May

Homestead entries for Dominion lands granted in the four western provinces during May, totalled 906, as compared with 640 for the same month last year. By provinces, Manitoba recorded 44, as against 71 for May, 1927; Saskatchewan, 260, as against 287; Alberta, 517, as against 265; and British Columbia, 79, as against 17. For the five months of the current year entries totalled 3,885, as compared with 2,168 for the smaller period of 1927. By provinces, Manitoba recorded 207, as against 253; Saskatchewan, 1,221, as against 1,038; Alberta, 2,249, as against 840; and British Columbia, 208, as against 37.

Don't Make a Toy Out of Baby -Babies Have Nerves-

By RUTH BRITAIN

Much of the nervousness in older children can be traced to the over-stimulation during infancy, caused by regarding baby as a sort of animated toy for the amusement of parents, relatives and friends. Baby may be played with but not for more than a quarter of an hour to an hour daily. Beyond that, being handled, tickled, caused to laugh or even scream, will sometimes result in vomiting, and invariably causes irritability, crying or sleeplessness.

Fretfulness, crying and sleeplessness from this cause can easily be avoided by treating baby with more consideration, but when you just can't see what is making baby restless or upset, better give him a few drops of pure, harmless Castoria. It's amazing to see how quickly it calms baby's nerves and soothes him to sleep; yet it contains no drugs or opiates. It is purely vegetable—the recipe is on the wrapper. Leading physicians prescribe it for colic, cholera, diarrhea, constipation, gas on stomach and bowels, feverishness, loss of sleep and all other "upssets" of babyhood. Over 25 million bottles used a year shows its overwhelming popularity.

With each bottle of Castoria, you get a book on Motherhood, worth its weight in gold. Look for Chas. H. Fletcher's signature on the package so you'll get genuine Castoria. There are many imitations.

THERE is nothing that has ever taken Aspirin's place as an antidote for pain. It is safe, or physicians wouldn't use it, and endorse its use by others. Sure, or several million users would have turned to something else. But get the real Aspirin (at any drugstore) with Bayer on the box, and the word *genuine* printed in red:

Aspirin is the trade mark registered in Canada indicating Bayer Manufacture. While it is well known that aspirin made by other manufacturers will be sold to the public against imitation, the tablets will be stamped with their "Bayer Cross" trade mark.

CHAPTER XXVIII.—Continued.

Helmi slept the sleep of utter exhaustion, for when she awakened the gray dawn was showing at the mouth of the cave. She looked around for the dog, but she was gone. The pain in her breasts was like a thousand knives twisting and torturing her, and a cry of utter anguish broke from her lips.

Then she remembered the horror of the night before and the terrible deed she had done. She saw again that face of fright and heard the scream.

She went to the mouth of the cave and saw below her the river, running so fair and peaceful and serene. The early morning light, platinum gray, was lying gently on the river's bosom, from which soft little veils of mist were ascending. Helmi shrank back from it in fright, remembering the man who had buried his troubles in its treacherous depths. She clung to the side of the cave pleading with the river not to tempt her. Watching its current she seemed to see Jack's face again gliding away from her. Then came little Lili's face, so cool and peaceful and smiling, with no more fever or pain, and an irresistible impulse to cool her burning, tortured breasts. In the quiet green waters of the river drove her forward.

For one brittle moment she swayed toward the stream. Then something bounded against her, throwing her backward to the grass, and her friend of the night before

FARMER'S WIFE GETS STRENGTH

By Taking Lydia E. Pinkham's Vegetable Compound

Wilton, Ont.—"I am taking Lydia E. Pinkham's Vegetable Compound through the Change of Life. It helps me and I cannot praise it too highly. I was troubled with heat flashes and my limbs were heavy so I could hardly walk to do my farm work. I saw in the newspapers your ad about the Vegetable Compound and thought to give it a trial. The first bottle gave me relief and I have told others what it does for me. I am willing for you to use my letter if you choose."—Mrs. D. B. PETERS, Wilton, Ontario.

Ask Your Neighbor

W. N. U. 1743

was beside her, whimpering, whispering, with a tenderness that Helmi knew, for it spoke a universal language. She crawled back in the cave, wide awake now, but writhing in her misery. Then came Cleo, the dog, with something in her mouth which she laid in Helmi's arms—a little furry, cuddly puppy, with a fat little body and cool, soft, eager, questing lips.

When Helmi awakened with a brain cleared of her midnight terrors and a body eased of its pain, she noticed the revolver, which through all her mad flight she had clutched in her hand. Horribly it recalled to her the madness of the terrible night and the loathsome deed that she had done. And yet—and yet—now that her brain was clearer, she could not recall that she had really fired the weapon. Her hand had been on the trigger when the lightning came.

She sprang toward it eagerly, for it could tell her what she wanted to know. Opening the chamber with trembling hand, she found every cartridge was in its place!

Then the soul of Helmi was born anew in thankfulness to God, and in a faith in His goodness that never again wavered, for God had saved her from sin. God had intervened to save her when her heart was farthest from Him. God was her friend. He loved her—He would not let her sin! With His own arm He had saved her.

Helmi went to the opening of the cave and drank in the beauty of the morning. The sun had just come over the edge of the earth, sending a sheen of gold and rose along the top of the mist that filled the valley below. As she watched, enraptured in her new-found gladness, the mist began to form into wisps and threads that curled and rose over the surface of the river, their upper ends twisting and thinning into the air.

A song burst from Helmi's heart, a song of gladness and love and faith—a song that the Blue Book had taught her:

"When the mists have rolled in splendour from the beauty of the hills,

And the sunshine falls in gladness on the rivers and the rills."

There was a whimper beside her. Cleo had come out of the cave. Helmi fell on her knees beside her, and kissed her honest forehead. "Cleo!" she cried, "the dog God sent!"

CHAPTER XXIX.

Helmi reached her own house that morning before the people of Eagle Mines were stirring. It was a sweet morning, without a trace of the storm of the night before, only that the air was washed clean and tasted cool in the mouth like a drink of spring water. She walked with her old sprightliness and without a single trace of fatigue.

Cleo followed her with one pup in her mouth, and Helmi carried the other two. The door of the house was not locked, and Helmi soon had a fire burning and a pot of porridge cooking for herself and the dog.

The house showed the traces of the hunting parties that had made it their abode, and from the fact that they had left the house dirty and littered, Helmi knew that they were not real hunters, but only city men out looking for game. The true hunter will leave everything as he finds it; this is the law of the wilderness.

But in Helmi's heart this morning there was no resentment as she swept and scrubbed. She had received so much from God that she could easily forgive any of His children, and as she worked she sang.

When the porridge was cooked and the condensed milk poured over it, she called Cleo, who had stayed outside until she was invited to enter. "Come in, Cleo," she said, "my house is yours. You and I will never part, and your pups are welcome, too. Come on!" Cleo came in, with a pup in her mouth, smiling as broadly as she could without altogether dropping the pup.

The dog's hunger was pathetic. All the more because it tried so hard not to appear ravenous. This was evidently her first good meal for several days. The puppies, tired out by their adventurous night, were soon fast asleep in a box in which Helmi had placed an old coat of Jack's, and in which they curled up into an indistinguishable mass of sable and white wool, with only one little round head showing.

When Cleo had eaten her breakfast she stood at attention, her eyes

Three Aids to Good Meals

Always Reliable — Sold by all Grocers

fixed on Helmi's face, as if she were trying to read her mind.

Helmi patted the dog's head. "Take a sleep, Cleo," she said, kindly; "when I get my house cleaned up and my clothes dried I will tell you all my plans. I do not know where we are going to live, you and I and our families, but I know we are going to live together. I heard many times in the city that no one wanted a girl with a baby, so I suppose a girl with a baby and a dog and three pups is not wanted either. But still I have faith in God, Cleo—He always helps. Now lie down and be happy we have enough here for a few days."

Life had changed for Helmi. The demon of revenge which had embittered her heart had been laid to rest by the hand of God, her friend. In her simple theology God had actually reached down His hand through the blackness of the storm and struck the magistrate dead because he had brought such evil upon her, and to prevent her from committing the crime of murder. God would be her friend for evermore; she would trust Him now whatever came. She had now no more fears for her baby. Lili was in God's keeping—God and the brown-eyed nurse who had spoken so kindly to her.

After a couple of hours of vigorous work Helmi had her house spotless again. Then she lay down to sleep, for a delicious weariness had come over her, and with it a sense of security and peace such as she had never known in all her life before. "Home and God," she murmured to herself drowsily, "Now I can sleep."

It was the middle of the afternoon when Helmi awoke. Cleo was sitting beside her, watching her. The pups were still sleeping. She sat up, shaking out her golden hair. The fire had died down but the house was pleasantly warm.

Outdoors the sun shone brilliantly, and Helmi went out to inhale the delectable odors of spring. How she had missed this in the city! But here it was as poignantly sweet as ever. The wind from the river brought to her the medicinal tang of the Balm of Gilead, pungent and healing, and Helmi's heart responded to it with a thrill of love, for she remembered the salve her mother used to make of the buds, boiled with clean white lard on the stove, strained through a white cloth and put away in little glass pots for use all the year. As she breathed in the odor reminiscently, from the woods behind the station came the liquid notes of the meadow lark.

(To Be Continued.)

Fresh Supplies In Demand. Wherever Dr. Thomas' Electric Oil has been introduced increased supplies have been ordered, showing that wherever it goes this excellent Oil impresses its power on the people. No matter in what latitude it may be found its potency is never impaired. It is put up in most portable shape in bottles and can be carried without fear of breakage.

Might Be Good Idea

Germany Has Suggestion For Checking Reckless Motorist

To check the activities of motorists who travel at reckless speeds, it is suggested in Germany that all drivers should be compelled to install a device that makes a red light glow as soon as the legal speed limit is exceeded.

This idea has apparently followed an invention of a German engineer, who devised a radiator cap light to warn pedestrians at night of the speed at which a car is approaching. Several lights are arranged as a radiator ornament, and for each ten-mile-an-hour increase in speed a different light flashes. At sixty miles a red light glows as a warning signal.

Minard's Liniment heals cuts, bruises, etc.

Little Helps For This Week

"Let all those that put their trust in Thee rejoice; let them also that love Thy name be joyful in Thee."—Psalm v. 11.

I know He is, and what He is, Whose one great purpose is the good Of all; I rest my soul on His Immortal love and Fatherhood, And trust Him as His children should.

—John Greenleaf Whittier.

To know God; to love Him altogether; to live in the light of His countenance; to be satisfied with a little in some directions, because in others we have so much; to receive all things hopefully, because they are from Him; to take the peace of resting in His goodness; to desire all the day long, "Oh that my heart were as Thy heart, and that wholly!"—these are open to us.

—John Hamilton Thorn.

A TIRED-OUT FEELING

Is a Sure Sign That the Blood Is Thin and Watery

"I am glad to have an opportunity of testifying to the benefits I derived from the use of Dr. Williams' Pink Pills," writes Mrs. Lawrence Kennedy, St. Joseph, N.B. She further says:—"Some years ago I was working as a stenographer, and became badly run-down. I always had a tired-out feeling, had no appetite and suffered terribly from backache. Almost every month I had to remain from the office for a day or two. I was advised to try Dr. Williams' Pink Pills, and I have reason to be glad that I followed this advice. Before I had been taking the pills very long I began to feel much better. Continuing their use my strength came back, I regained my appetite and the terrible backache from which I had suffered disappeared. I have been married some years now and have two fine healthy children, a girl and a boy, and am in the best of health. All this I owe to Dr. Williams' famous Pink Pills, and I trust that these few lines may help some other weak, run-down person."

All weak, run-down people who will give this blood-building tonic a fair trial will find through its use new health and strength. You can get the pills from any dealer in medicine, or by mail at 50 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

Given Life Passes On Boats

Captain Koehl, Major Fitzmaurice, and Baron von Huenefeld, who made the first westward Atlantic flight in the Bremen, were presented with free passes for all the Hamburg-American Line boats for the rest of their lives by Director Boerger, at Hamburg.

Minard's Liniment for Insect Bites.

"I see you've given up teaching your wife to drive."

"Yes; we had an accident. I told her to release the clutch and she let go of the steering wheel."

Issued By The Canadian Dental Hygiene Council and Published By The Saskatchewan Dental Society

THE "GUM BOIL"

Your child has come running to you one day—suffering pain—and has pulled aside his lip to let you see an angry lump on his little jaw.

And, since it was just as sore as a boil to touch, you called it a "gum boil."

Or, possibly he had not complained of any soreness then, but one day while scrubbing his teeth, you noticed this lump with a little opening in the centre, reminding you for all the world of a miniature volcano.

And from the "crater," was running a thick yellowish substance, which you knew to be pus.

Now, what had caused this? Just one thing—a dead pulp.

Now, what should be done? For, of course, this condition should receive prompt treatment.

Should the tooth be not too badly decayed, your dentist may think it wise to try to save it; but more often, it should be extracted after the inflammation has pretty well subsided.

Following this treatment, the gum heals over and you congratulate yourself that no harm has been done.

But consider: already serious disturbances may have resulted, in the disease process may have destroyed the permanent tooth germ beneath, to say nothing of the train of evils from the premature extraction of the offending tooth; and from the drainage of the pus into the system during the progress of the disease.

How much better, then, had the tooth received attention during the early stages of tooth decay.

What Could Be Clearer

Naughty little Jimmy had been eating green apples, so his mother had to call in the doctor.

"Now my little man," said the kind doctor, "tell me what you think is the matter with you."

"It's like this, doctor," answered Jimmy from his bed of sickness, "you know how you feel when you don't know how you feel? Well, that's how I feel."

Relieves Asthma At Once. If you could read the thousands of unsolicited letters received by the makers from grateful users you, too, would realize the remarkable powers of Dr. J. D. Kellogg's Asthma Remedy. All cases, incipient and chronic, are benefited by this great family remedy. Why suffer or experiment with worthless preparations when the genuine Kellogg's can be purchased everywhere.

Physicians are called upon to prescribe for the imagination more often than anything else.

A young lady seldom tires of trying to convert a bachelor to the annexation theory.

When Pain Comes

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sour. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention.

One spoonful of this harmless,

tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methode when once you learn the efficiency of this. Go get a small bottle to try.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

Regulations governing the operation of tourist and recreational camps in Alberta have recently been passed by the Lieutenant Governor in Council and are now being prepared for distribution to the owners or operators of such camps and the secretaries of all health organizations in the Province by the Provincial Board of Health. Posters displaying these regulations are also being sent to the operators of camps.

RUGBY SCHOOL REPORT

The following have passed into:

Grade VIII. Bruce Swingle, Margaret Shannon.

Grade VII. Walter Cook.

Grade VI. Mary Prethero.

Grade V. Donald Shannon, Arnold Russell, Milton Russell, Lawrence Oliver.

Grade IV. Albert Krebs, Alfred Cook.

Grade III. Lawrence Krebs, Eula Russell, Edith Reich.

Grade II, Sr. LaRue Russell, Carl Reich.

Grade II, Jr. Lucille Russell.

Grade I, Sr. Helen Novacluse.

Grade I, Jr. Billy Novacluse, Leonard Russell.

Teacher, Ruth Brubaker.

A very pleasant afternoon was spent at the home of Mrs. (Dr.) Evans on Friday, July 13th, when thirty of the members of the Eastern Star met to give Mrs. J. R. Miller a farewell tea, and extending her best wishes in her new home. Mrs. Leadbetter read the address and presented Mrs. Miller with a china berry set. Mrs. Miller replied, thanking them all for their good wishes.

Another donation to the special prize list has been received by the Secretary. Donated by the Wheat Pool for the best spring calf owned by boy or girl under 15. 1st \$5, 2nd \$3, 3rd \$2.

The appointment of Dr. R. C. Wallace, professor of geology at the University of Manitoba, to the presidency of the University of Alberta to succeed Dr. H. M. Tory, who recently resigned to become chairman of the National Research Council of Canada, has been announced during the past week by Hon. Perren Baker, Minister of Education, in the absence of Premier Brownlee.

Dr. Wallace brings to the position of president not only a high degree of scholarship, but also a wide experience in administrative work outside the usual field of university activities. During the past few years he has held the post of Commissioner of Mines for the province of Manitoba, and he is also a past president of the Canadian Institute of Mining and Metallurgy. It is felt that Dr. Wallace's training and experience along geological lines will be of considerable value in connection with many of the problems relating to the development of Alberta's mineral and other resources.
